PYRACANTHA crenato-serrata

"GARDEN FOR PLEASURE"

PIERIS japonica

NANDINA domestica

FOUNDATION PLANTING

TERMS AND CONDITIONS OF SALE

PRICES: All prices quoted include planting locally. Special arrangements may be made for out-of-town plantings. Special discounts of approximately 20% offered on cash and carry sales at the nursery. Prices quoted do not apply to specially selected specimen plants. These will be priced according to value.

**ALL PRICES SUBJECT TO CHANGE
WITHOUT NOTICE**

TERMS: Cash-net 30 days. All accounts unpaid after 30 days will be subject to interest of 1% per month until paid.

BUDGET PLAN: Budget Plan landscaping is becoming more popular each year. It provides a way for anyone to enjoy well-landscaped grounds while paying for it in easy monthly payments. Ask about our plan and watch your investment grow.

GUARANTEE: We will replace, free of cost, any plant that fails to live through June 1, following planting date. This applies to plantings made September 1 through April 30. Plantings made during the growing season, May 1 through August 31, will be guaranteed for 30 days after planting. This guarantee shall be valid only if plants are cared for as we instruct and account has been paid according to terms of sale. **Absolutely no claims will be recognized unless loss is reported before guarantee period expires.**

INSPECTION: Certificate of inspection by Virginia Department of Agriculture is issued with each shipment, certifying that our stock has been inspected and found free of insect pests and disease.

LANDSCAPE SERVICE: We offer a complete landscape planning service for our customers. Telephone or write for complete information.

AZALEA, Pink Pearl

AZALEAS

Given proper location, adequate soil preparation and a little special attention, Azaleas will succeed for almost anyone.

For best results, Azaleas require a well-drained soil, rich in humus, with a pH of approximately 4.5 to 5.5. This is decidedly acid, and most soils will require the addition of some sulphur or other suitable agent to condition them for Azaleas. Also, most soils will need humus added, since the soil should be about 50% humus. Peat-moss is the best humus to use for Azaleas.

Since Azaleas are shallow-rooted plants, they must be watered frequently in dry weather. To be safe, examine them twice a week and soak when necessary.

DECIDUOUS AZALEAS

These Azaleas are excellent subjects for the wild garden. They also afford a range of colors not obtainable in evergreen Azaleas. Most effective planted in masses in combination with broadleaf evergreens or evergreen Azaleas.

CALENDULACEA (Flame Azalea). A native of our Carolina mountains. Bears beautiful orange and bright gold flowers, as well as yellow and cream colors. At its best in May and June.

NUDIFLORA (Pinxterbloom Azalea). A tall-growing native Azalea similar to Calendulacea, but having delicate pink flowers.

YODOGAWA. Full double, rosy purple flowers of medium size.

Prices on Deciduous Azaleas

DWARF AZALEAS

These are the dwarf evergreen Azaleas with masses of colorful flowers in spring.

AMOENA SUPERBA. The dark purple flowers shade darker toward the center, while on the outside the purple shades to red. Hose-in-hose variety. Foliage is small, dark glossy green. Plants are compact and bushy.

BRIDESMAID. Glowing salmon-pink flowers in very large clusters. Small, glossy, bright green foliage.

CHRISTMAS CHEER. Brilliant red flowers. Very dark green foliage. Earliest of the Kurumes.

DWARF AZALEAS, continued

CORAL BELLS. Coral-pink, shaded deeper in the center; medium-sized hose-in-hose flowers profusely produced. The plants have small, round, glossy foliage.

HEXE. Large, hose-in-hose flowers of crimson-red on compact plants. Medium late flowering.

HINODEGIRI. Glowing rosy scarlet flowers. This is one of the most brilliant of all the dwarf Azaleas and is a very profuse bloomer over a long period. Plants can be kept in dwarf condition.

MACRANTHA. Large, single, salmon-red flowers, similar to Hinodegiri. Compact, dwarf green, glossy foliage. Very late blooming.

DOUBLE MACRANTHA. Dark pink, hose-in-hose flowers. Late bloomer.

PINK PEARL. Hose-in-hose flowers of a lovely shade of salmon-rose shaded lighter in center. Blooms in quite large clusters.

SALMON BEAUTY. Large, salmon-pink flowers of hose-in-hose type. Bright foliage.

SNOW. Large, pure white flowers borne profusely in good-sized clusters. Beautiful, glossy green foliage.

YAYE-GIRI. Semi-double flowers of a lovely shade of salmon-red. Narrow foliage of a warm, intense green. A very showy and floriferous variety.

HARDY EVERGREEN AZALEAS

A miscellaneous group of Azaleas from many different families. Here are varieties of evergreen Azaleas varying greatly in color of foliage and flower, habit of growth and size. All are hardy.

BENIGIRI. Deep bright red, almost scarlet. Compact growth. Tall growing.

FUJIMOYO. The 2-in., double flowers are pale pink-lilac. A very delightful variety.

HARDY FIREFLY. Single, fiery red flowers of good size. A very hardy Azalea of compact growth.

LEDIFOLIA ALBA. Pure white. Vigorous, profuse-blooming plants. One of the hardiest of this family.

AZALEA ledifolia alba

HARDY EVERGREEN AZALEAS, continued

LEDIFOLIA LILACINA. Large, single, lilac-colored blossoms. Heavy grower.

LEDIFOLIA ROSEA. Pale pink, medium-sized flowers. Medium growth, bushy.

MAXWELLI. Large, single flowers, 2 in. in diameter, deep rose with darker spots. Low, broad-growing plants. Very hardy.

ORCHID. Deep lilac-pink flowers of medium size. Dark green foliage. Dwarf, compact plant.

POUKHANENSIS (Korean Azalea). Clear rosy lavender flowers spotted with purplish brown on the upper lobe. Flowers are large, very fragrant, and produced in large quantities in early May. Strong-growing, hardy, attractive foliage in the fall.

CAMELLIA japonica

CAMELLIAS

Camellias gain in popularity each year. No other group of plants offers so many desirable qualities as Camellias. They have lustrous evergreen foliage as well as beautiful blooms borne in profusion. Many varieties are compact in growth and make very handsome specimens, even without blossoms.

Camellias respond well to the same general cultural conditions as Azaleas. They will be at their best in a location protected from the winter sun.

CAMELLIA japonica (Spring-flowering Camellia). We offer many selected varieties and types suitable for planting in this area. Prices vary as follows:

	Each
15 to 18 in.....	\$4 00 to \$6 00
18 to 24 in.....	6 00 to 8 50
24 to 30 in.....	8 00 to 10 00
30 to 36 in.....	10 00 to 12 50
36 to 42 in.....	12 50 to 17 50

CAMELLIA sasanqua (Fall-flowering Camellia). Generally faster and more loose growing than *Camellia japonica*. Very hardy. We offer selected varieties.

18 to 24 in.....	7 50
24 to 30 in.....	9 00

BROADLEAVED EVERGREENS

Here is a large group of evergreen shrubs to give year-round beauty. There is a wide variety, many offering beautiful flowers as well as rich green foliage and bright berries in fall and winter. Most of the broadleaves are of relatively easy culture, often thriving under adverse conditions where other evergreens refuse to grow. Almost all varieties are readily controlled by pruning, which may be done at any time during the year. There is no other group of plants so satisfactory as the broadleaves. We believe that any planting should have a variety of these shrubs in order to produce the most pleasing result.

ABELIA, Edward Goucher. Bushy, compact growth. Beautiful lavender-pink, bell-shaped flowers from May to frost.

	Each	Each
15 to 18 in.....	\$3 75	24 to 30 in.....\$6 00
18 to 24 in.....	4 50	

ABELIA grandiflora. Glossy-foliaged plants which can be pruned to any height. White flowers flushed pink from May to October.

Prices same as above.

GARDENIA florida

BROADLEAVED EVERGREENS, continued

GARDENIA florida (Cape Jasmine). A thick, bushy evergreen with glossy leaves. The heavily scented, waxy-white flowers are borne in profusion in late spring. Requires some winter protection.

Each		Each	
15 to 18 in.....	\$3 50	24 to 30 in.....	\$7 00
18 to 24 in.....	5 00	30 to 36 in.....	10 00

GARDENIA stricta nana (Dwarf Cape Jasmine). Low-growing, with small glossy leaves and small Gardenia blossoms. Hardy.

Each		Each	
12 to 15 in.....	\$3 50	18 to 24 in.....	\$6 00
15 to 18 in.....	4 50		

HYPERICUM calycinum. See Vines and Ground Covers.

ILEX—THE HOLLIES

This is probably the most important single group of plants for ornamental use. The Hollies are excellent landscape subjects, useful in all phases of landscape development.

ILEX aquifolium (English Holly). Lustrous, spiny leaves and bright red berries. Slow, compact growth.

Each		Each	
18 to 24 in.....	\$7 50	24 to 30 in.....	\$11 50

ILEX cornuta (Chinese Holly). Large growing, compact. Oblong leaves, three-pointed at the apex, dark green and glossy. Red berries on pistillate plants.

Each		Each	
15 to 18 in.....	\$5 00	24 to 30 in.....	\$11 50
18 to 24 in.....	7 50	30 to 36 in.....	15 00

ILEX cornuta burfordi (Burford Chinese Holly). A more dwarf and globose form of the above, with dark green, glossy leaves, rounded, with a single spine at the apex. No staminate plants. All bear bright red berries that last most of the winter.

Each		Each	
15 to 18 in.....	\$4 50	30 to 36 in.....	\$13 50
18 to 24 in.....	6 50	36 to 42 in.....	17 50
24 to 30 in.....	10 00	42 to 48 in.....	22 50

BROADLEAVED EVERGREENS, continued

ILEX crenata (Japanese Holly). A dwarf plant of compact growth, having small, dark green leaves.

Each		Each	
12 to 15 in.....	\$3 50	21 to 24 in.....	\$7 25
15 to 18 in.....	4 50	24 to 30 in.....	8 75
18 to 21 in.....	6 25	30 to 36 in.....	12 50

ILEX crenata convexa (Convex-leaf Japanese Holly). Dwarf, low-growing shrub with small, glossy, convex leaves. Compact, dense growth gives a boxwood-like appearance. Very popular.

Each		Each	
12 to 15 in.....	\$3 50	21 to 24 in.....	\$7 50
15 to 18 in.....	4 75	24 to 30 in.....	9 00
18 to 21 in.....	6 50	30 to 36 in.....	13 50

ILEX crenata helleri (Heller Japanese Holly). Very low, almost trailing growth. Dense and compact, with tiny leaves. Unsurpassed for very low hedges or low evergreen edging of flower and shrub beds.

Each		Each	
6 to 8 in.....	\$3 00	12 to 15 in.....	\$5 50
8 to 10 in.....	3 75	15 to 18 in.....	7 00
10 to 12 in.....	4 50	18 to 24 in.....	9 00

ILEX crenata microphylla (Little-leaf Japanese Holly). Small, narrow leaves, dark green. Slow, compact growth. Excellent for dwarf hedges and foundation planting.

Each		Each	
12 to 15 in.....	\$3 50	21 to 24 in.....	\$7 50
15 to 18 in.....	4 75	24 to 30 in.....	9 00
18 to 21 in.....	6 50	30 to 36 in.....	13 50

ILEX crenata pyramidalis (Pyramidal Japanese Holly). Similar to above except growth is upright. Requires some trimming to keep compact. Small, rounded leaves.

Each		Each	
24 to 30 in.....	\$8 00	36 to 42 in.....	\$12 50
30 to 36 in.....	10 00	42 to 48 in.....	15 00

ILEX crenata helleri

BROADLEAVED EVERGREENS, continued

ILEX crenata rotundifolia (Round-leaf Japanese Holly).

Very glossy, dark green leaves, almost round. Broad, compact plants of medium dwarf habit.

Each		Each

(Larger Specimens to \$250.00)

These prices apply to average quality stock of our selection. Plants specially selected by the customer and specimen grade stock will be priced individually according to value.

MAGNOLIA virginiana (Swamp Magnolia). A handsome, small tree bearing sweet-scented white flowers in June. The foliage is bluish green.

	Each	Each
2 to 3 ft.	\$5 00	5 to 6 ft. \$13 50
3 to 4 ft.	7 50	6 to 7 ft. 18 50
4 to 5 ft.	10 00	

MAHONIA aquifolium (Oregon Holly-Grape). Spiny, holly-like foliage, glossy green in summer and bronze to red in winter. Yellow flowers in early spring followed by blue, grape-like berries in clusters.

	Each	Each
15 to 18 in.	\$4 00	24 to 30 in. \$8 00
18 to 24 in.	5 50	30 to 36 in. 11 00

MAHONIA bealei (Leather-leaf Holly-Grape). Similar flowers and fruit to above. Foliage is larger, light blue-green in summer with varied winter colors.

Prices same as for Mahonia aquifolium.

MYRICA cerifera (Southern Wax-Myrtle). A large shrub whose rich green foliage turns purplish bronze in autumn. Bluish white, aromatic berries.

	Each	Each
2 to 3 ft.	\$5 00	5 to 6 ft. \$12 50
3 to 4 ft.	7 50	6 to 7 ft. 15 00
4 to 5 ft.	9 00	

NANDINA domestica. An attractive shrub whose foliage varies from green to red, with panicles of white flowers followed by bright red berries.

	Each	Each
15 to 18 in.	\$3 00	30 to 36 in. \$6 50
18 to 24 in.	4 00	36 to 42 in. 8 50
24 to 30 in.	5 00	

OSMANTHUS fortunei. A holly-like evergreen having spiny-toothed leaves on a broad, oval-shaped plant. Compact and slow growing.

	Each	Each
15 to 18 in.	\$3 75	30 to 36 in. \$9 00
18 to 24 in.	5 00	36 to 42 in. 11 50
24 to 30 in.	7 00	42 to 48 in. 14 00

OSMANTHUS ilicifolius. Shining dark green leaves, closely resembling American Holly. A dwarf, slow-growing evergreen shrub, having fragrant white flowers in autumn.

Prices same as above.

PRUNUS caroliniana

PHOTINIA glabra (Japanese Photinia). New foliage is a striking, vivid red, changing to bronze-green as it matures. Medium fast growth. Very desirable.

Each		Each	
18 to 24 in.....	\$5 00	36 to 42 in.....	\$11 00
24 to 30 in.....	7 00	42 to 48 in.....	13 50

RHODODENDRON maximum

BROADLEAVED EVERGREENS, continued

VIBURNUM japonicum (Japanese Viburnum). Large, upright growth. Very glossy, large green leaves. White flowers in clusters.

Each		Each	
5 to 18 in.....	\$5 00	24 to 30 in.....	\$9 00
18 to 24 in.....	6 50		

VIBURNUM rhytidophyllum (Leather-leaf Viburnum). A tall evergreen variety with leather-like leaves, light green in color. The flowers are yellowish white in spring.

Each		Each	
15 to 18 in.....	\$3 50	24 to 30 in.....	\$7 50
18 to 24 in.....	5 00	30 to 36 in.....	9 00

VIBURNUM tinus (Laurestinus). Compact growth. Foliage small, very shiny. Clusters of pinkish white flowers. Requires a well-protected location.

Each		Each	
15 to 18 in.....	\$5 00	18 to 24 in.....	\$6 50

YUCCA aloifolia (Spanish Bayonet). Sharp, sword-shaped leaves atop bare, tree-like stems. Unusual subtropical appearance.

Each		Each	
3 to 4 ft.....	\$12 50	4 to 5 ft.....	\$15 00

YUCCA filamentosa (Adams Needle). Stiff, upright leaves, sword-like and stemless. Tall flower stalks in summer.

Potted plants, \$6.00 per doz. Field clumps, \$2.50 each.

CONIFEROUS EVERGREENS

The conifers, or cone-bearing evergreens will always have a place in the landscaping of home grounds. Their cool, refreshing appearance and delightful fragrance are as welcome in summer as in winter. They furnish a quiet note of green, acting as an excellent foil for the riotous bloom and contrasting textures of deciduous trees and shrubs. By studying the varieties listed one can find a conifer for every purpose. They vary greatly as to color, height and form.

CEDRUS atlantica (Atlas Cedar). An aristocratic evergreen tree with short, gray-green needles on graceful, ascending branches.

Each		Each	
30 to 36 in.	\$10 00	4 to 5 ft.	\$16 50
3 to 4 ft.	12 50	5 to 6 ft.	22 50

CEDRUS atlantica glauca. The blue Atlas Cedar with foliage of a silvery blue. A very fine specimen.

Each		Each	
4 to 5 ft.	\$25 00	6 to 7 ft.	\$45 00
5 to 6 ft.	35 00		

CEDRUS deodara (Deodar Cedar). Graceful drooping branches. Soft, feathery foliage, blue-green. This is the finest of the large evergreen trees.

Each		Each	
30 to 36 in.	\$7 50	5 to 6 ft.	\$16 50
3 to 4 ft.	9 00	6 to 7 ft.	20 00
4 to 5 ft.	12 50	7 to 8 ft.	27 50

CEDRUS libani (Cedar of Lebanon). A famous evergreen tree, dating back to biblical times. Dark green, short needles. Stately, upright growth.

Each		Each	
30 to 36 in.	\$10 00	5 to 6 ft.	\$22 50
3 to 4 ft.	12 50	6 to 7 ft.	30 00
4 to 5 ft.	16 50	7 to 8 ft.	40 00

CHAMAECYPARIS obtusa gracilis (Slender Hinoki Cypress). A slow-growing evergreen of compact, upright growth.

Each		Each	
24 to 30 in.	\$6 00	3 to 4 ft.	\$10 00
30 to 36 in.	7 50	4 to 5 ft.	13 50

CHAMAECYPARIS obtusa nana (Dwarf Hinoki Cypress). A dwarf, slow-growing evergreen having attractive twisted branches.

Each		Each	
18 to 24 in.	\$6 00	30 to 36 in.	\$10 00
24 to 30 in.	7 50	3 to 4 ft.	12 50

CHAMAECYPARIS pisifera filifera (Thread Retinospora). Bushy type with dark green, thread-like, drooping foliage.

Each		Each	
18 to 24 in.	\$4 50	3 to 4 ft.	\$8 50
24 to 30 in.	5 50	4 to 5 ft.	11 00
30 to 36 in.	6 50		

CHAMAECYPARIS plumosa (Plume Retinospora). One of the hardiest varieties, with feathery branchlets. Pyramidal growth.

Each		Each	
18 to 24 in.	\$3 00	3 to 4 ft.	\$7 50
24 to 30 in.	4 00	4 to 5 ft.	10 00
30 to 36 in.	5 50	5 to 6 ft.	12 50

CHAMAECYPARIS plumosa aurea. Pyramidal form with fluffy foliage which is a rich golden color in the spring.

Prices same as above.

JUNIPERUS virginiana canaerti. A pyramidal form with dark green foliage.

Prices same as above.

JUNIPERUS virginiana glauca (Silver Red Cedar). Variety with glaucous blue foliage.

Prices same as above.

JUNIPERUS virginiana

CONIFEROUS EVERGREENS, continued

JUNIPERUS virginiana keteleeri (Keteleer Red Cedar).

Upright, almost conical shape. Dense, compact growth. Beautiful, light green foliage that does not brown in winter. This is the best of the upright Junipers. Excellent for both foundation planting and hedges.

Each		Each	
30 to 36 in.....	\$6 50	5 to 6 ft.....	\$13 50
3 to 4 ft.....	8 50	6 to 7 ft.....	17 50
4 to 5 ft.....	11 00	7 to 8 ft.....	25 00

PICEA abies (Norway Spruce). Favorite slow-growing tree of graceful form with dense, deep green foliage.

Each		Each	
24 to 30 in.....	\$6 00	4 to 5 ft.....	\$13 50
30 to 36 in.....	8 00	5 to 6 ft.....	17 50
3 to 4 ft.....	10 00	6 to 7 ft.....	25 00

PICEA pungens glauca (Colorado Blue Spruce). Slow-growing, cone-shaped Spruce with blue-gray foliage. The new growth in spring is steel-blue.

Each		Each	
24 to 30 in.....	\$13 50	3 to 4 ft.....	\$20 00
30 to 36 in.....	16 50		

PINUS caribaea (Slash Pine). Long, light green needles. Tall, vigorous growing; dome-like crown.

Each		Each	
2 to 3 ft.....	\$6 00	4 to 5 ft.....	\$10 00
3 to 4 ft.....	7 50		

PINUS strobus

CONIFEROUS EVERGREENS, continued

PINUS densiflora (Japanese Red Pine). A rapid-growing tree with wide-spread, strongly branched head. The needles are bluish. Each

3 to 4 ft. \$8 50	6 to 7 ft. \$25 00
4 to 5 ft. 12 50	7 to 8 ft. 35 00
5 to 6 ft. 18 50	

PINUS mugo (montana) (Swiss Mountain Pine). A dwarf, bushy tree with stiff, compact, upright branches. Each

12 to 15 in. \$3 75	18 to 24 in. \$6 50
15 to 18 in. 4 75	24 to 30 in. 8 25

PINUS strobus (White Pine). Soft blue-green needles. Compact, upright growth. An excellent subject for tall screen or lawn specimen. Fast growing. Each

2 to 3 ft. \$5 50	6 to 7 ft. \$16 50
3 to 4 ft. 7 00	7 to 8 ft. 22 50
4 to 5 ft. 9 00	8 to 10 ft... \$30 00 and up
5 to 6 ft. 12 50	

PINUS sylvestris (Scotch Pine). Low, dense growth. gray-green, short needles. Each

2 to 3 ft. \$7 50	3 to 4 ft. \$10 00
------------------------	-------------------------

PINUS taeda (Loblolly Pine). The well-known native Pine with green needles of medium length. Dome-shaped, rapid growth. Each

3 to 4 ft. \$7 50	1½ to 2-in. cal. \$20 00
4 to 5 ft. 10 00	2 to 2½-in. cal. 30 00
5 to 6 ft. 13 50	2½ to 3-in. cal. 40 00
6 to 7 ft. 17 50	3 to 3½-in. cal. 50 00

PINUS virginiana (Virginia Pine). Broad, dense growth. Low branching and bushy. Short, dark green needles resembling a Spruce. Each

2 to 3 ft. \$7 00	5 to 6 ft. \$15 00
3 to 4 ft. 9 00	6 to 7 ft. 18 50
4 to 5 ft. 11 00	1½ to 2-in. cal. 22 50

RETINOSPORA. See Chamaecyparis, pages 18 and 19.

TAXUS cuspidata (Japanese Yew). A slow-growing, low, bushy plant with dark green foliage. Very hardy. Each

15 to 18 in. \$4 50	30 to 36 in. \$10 00
18 to 24 in. 6 00	36 to 42 in. 13 50
24 to 30 in. 7 50	

TAXUS media hicksi. Hybrid of the Japanese and English Yew, making a very attractive, slow-growing columnar plant. Each

15 to 18 in. \$4 00	30 to 36 in. \$10 00
18 to 24 in. 5 50	36 to 42 in. 13 50
24 to 30 in. 7 50	42 to 48 in. 16 50

THUJA occidentalis (American Arborvitae). Compact, pyramidal form which is very desirable for hedge purposes. Each

24 to 30 in. \$3 75	4 to 5 ft. \$8 50
30 to 36 in. 4 50	5 to 6 ft. 11 50
3 to 4 ft. 6 00	

THUJA occidentalis elegantissima. A compact, broad, pyramidal plant, having yellow-tipped foliage. Makes a very handsome specimen, needing very little trimming. Each

24 to 30 in. \$4 00	4 to 5 ft. \$10 00
30 to 36 in. 5 50	5 to 6 ft. 12 50
3 to 4 ft. 7 50	

THUJA occidentalis pyramidalis

CONIFEROUS EVERGREENS, continued

THUJA occidentalis globosa. Dwarf, round form with bright green leaves. Each

12 to 15 in.	\$2 75	24 to 30 in.	\$6 00
15 to 18 in.	3 75	30 to 36 in.	7 50
18 to 24 in.	4 75		

THUJA occidentalis lobbii. A very dark green, broad pyramid. Dense, compact growth, needs very little shearing. Each

24 to 30 in.	\$4 00	4 to 5 ft.	\$10 00
30 to 36 in.	6 00	5 to 6 ft.	12 50
3 to 4 ft.	8 00	6 to 7 ft.	16 50

THUJA occidentalis lutea (Geo. Peabody Arborvitae). A very desirable open-growing pyramid. The foliage is reddish gold and bronze in winter. Can be sheared into very compact specimen. Each

24 to 30 in.	\$3 75	4 to 5 ft.	\$8 50
30 to 36 in.	4 50	5 to 6 ft.	11 50
3 to 4 ft.	6 00	6 to 7 ft.	15 00

THUJA occidentalis nigra. A dark green, more compact form of the American Arborvitae. Each

24 to 30 in.	\$4 00	4 to 5 ft.	\$10 00
30 to 36 in.	5 50	5 to 6 ft.	12 50
3 to 4 ft.	7 50	6 to 7 ft.	16 50

THUJA occidentalis pyramidalis (Pyramidal Arborvitae). A true, narrow columnar form with dark green foliage. The color is retained throughout the winter. The most popular of all the Arborvitae. Each

24 to 30 in.	\$4 00	4 to 4½ ft.	\$10 00
30 to 36 in.	5 50	4½ to 5 ft.	12 50
36 to 42 in.	7 00	5 to 6 ft.	15 00
42 to 48 in.	8 50		

CONIFEROUS EVERGREENS, continued

THUJA orientalis aurea nana

THUJA orientalis (Oriental or Chinese Arborvitae). An upright evergreen tree, very desirable for hedges as well as individual specimen. The foliage is soft and fragrant.

FLOWERING TREES

We are listing here the smaller growing trees noted for their beautiful flowers during the spring season. Many of them bear attractive fruits or berries greatly relished by the birds. Others have foliage of many hues in autumn, adding much to the beauty of any planting. By all means include some of the flowering trees in your planting.

ACER palmatum atropurpureum (Japanese Red-leaf Maple). A dwarf, slow-growing tree, usually having several stems. The leaves are bright red in spring, changing to bronze-green in summer.

Each		Each	
18 to 24 in.....	\$5 00	3 to 4 ft.....	\$11 50
24 to 30 in.....	6 50	4 to 5 ft.....	16 50
30 to 36 in.....	8 50		

CERCIS canadensis (Redbud). A neat-growing tree having rosy lavender blossoms on spreading branches in early spring.

Each		Each	
3 to 4 ft.....	\$3 75	6 to 7 ft.....	\$11 50
4 to 5 ft.....	5 00	7 to 8 ft.....	16 50
5 to 6 ft.....	7 50	8 to 10 ft.....	22 50

CERCIS chinensis (Chinese Redbud; Judas-tree). A more shrub-like form than above, with flowers just a shade darker and a trifle larger.

Each		Each	
18 to 24 in.....	\$2 75	3 to 4 ft.....	\$4 50
2 to 3 ft.....	3 50	4 to 5 ft.....	6 00

CHIONANTHUS virginica (White Fringe-tree). Well-formed, deciduous tree with panicles of white flowers in May and June. Hardy as far north as New York.

Each		Each	
2 to 3 ft.....	\$4 00	4 to 5 ft.....	\$7 50
3 to 4 ft.....	6 00	5 to 6 ft.....	10 00

CLADRASTIS lutea (Yellowwood). A dwarf, slow-growing tree with fragrant panicles of white flowers in spring. It has Locust-like foliage.

Each		Each	
4 to 5 ft.....	\$9 00	6 to 8 ft.....	\$16 50
5 to 6 ft.....	12 50	8 to 10 ft.....	22 50

CORNUS florida (Flowering Dogwood). The American Dogwood is one of the finest of all ornamental small trees, covering itself with its white bracts in spring. These are followed by attractive red berries and colorful foliage in fall.

Each		Each	
2 to 3 ft.....	\$3 25	5 to 6 ft.....	\$8 00
3 to 4 ft.....	4 50	6 to 7 ft.....	11 00
4 to 5 ft.....	6 50		

CORNUS florida rubra (Pink-flowering Dogwood). Deep pink sport of the American Dogwood which makes an attractive specimen and is especially pleasing when mingled with its white parent in a planting.

Each		Each	
24 to 30 in.....	\$4 00	4 to 5 ft.....	\$12 00
30 to 36 in.....	5 00	5 to 6 ft.....	16 00
3 to 4 ft.....	8 00		

CORNUS mas (Cornelian Cherry). A small, shrubby tree having conspicuous yellow flowers very early in spring, followed by red fruits in late summer.

Each		Each	
2 to 3 ft.....	\$4 00	4 to 5 ft.....	\$8 00
3 to 4 ft.....	6 00	5 to 6 ft.....	10 00

COTINUS coggygia (Smoke-tree). Feathery panicles of smoke-like blooms in late spring. Beautiful fall-coloring foliage.

Each		Each	
2 to 3 ft.....	\$3 50	4 to 5 ft.....	\$6 50
3 to 4 ft.....	4 50	5 to 6 ft.....	9 00

FLOWERING TREES, continued

COTINUS coggygia purpureus (Purple-leaf Smoke-tree). Similar to above but foliage is purple, holding color well throughout the summer.

Each		Each	
2 to 3 ft.....	\$4 00	4 to 5 ft.....	\$7 50
3 to 4 ft.....	5 00	5 to 6 ft.....	10 00

CRATAEGUS cordata (Washington Hawthorn). A bushy tree with white flowers followed by clusters of red berries.

Each		Each	
3 to 4 ft.....	\$4 50	5 to 6 ft.....	\$8 50
4 to 5 ft.....	6 50	6 to 7 ft.....	11 50

CRATAEGUS oxyacantha (English Hawthorn). A dwarf tree with white flowers, followed by bright red fruit. Thorny branches.

Each		Each	
2 to 3 ft.....	\$4 00	4 to 5 ft.....	\$7 50
3 to 4 ft.....	6 00	5 to 6 ft.....	10 00

CRATAEGUS oxyacantha pauli (Paul's Scarlet Hawthorn). Variety with striking double, bright scarlet flowers. It blooms freely and is the most popular of the Hawthorn family.

Each		Each	
3 to 4 ft.....	\$5 50	5 to 6 ft.....	\$10 00
4 to 5 ft.....	7 50	6 to 7 ft.....	12 50

FRANKLINIA alatamaha. Low-growing tree with shiny, bright green leaves and large, waxy white flowers in the fall.

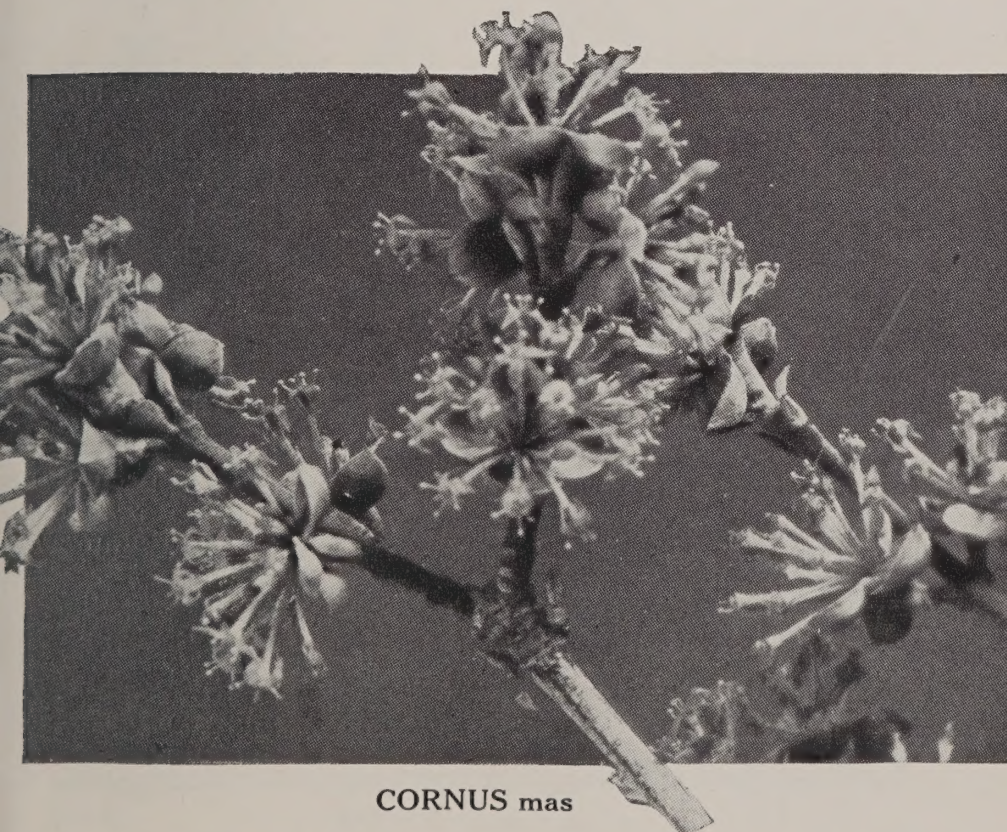

Each		Each	
3 to 4 ft.....	\$10 00	5 to 6 ft.....	\$15 00
4 to 5 ft.....	12 50	6 to 7 ft.....	20 00

HALESIA carolina (Great Silverbell). Handsome, bell-shaped, drooping flowers in spring. Neat, upright growth.

Each		Each	
3 to 4 ft.....	\$6 00	4 to 5 ft.....	\$7 50

ILEX decidua (Possum-haw). A small, bushy tree with small leaves. The bright red berries, borne in profusion, persist all winter long. Grows well in wet spots.

Each		Each	
2 to 3 ft.....	\$6 00	4 to 5 ft.....	\$12 50
3 to 4 ft.....	9 00		

CORNUS mas

MAGNOLIA soulangeana

KOELREUTERIA paniculata (Goldenrain-tree). Panicles of deep yellow flowers in summer. Slow-growing, rounded tree. Each

3 to 4 ft.....	\$6 00	1½ to 2-in. cal.....	\$20 00
4 to 5 ft.....	8 00	2 to 2½-in. cal.....	30 00
5 to 6 ft.....	10 00		

LABURNUM vossii (Goldenchain-tree). Slow-growing tree which stays small. Wisteria-like, yellow flowers in clusters in May. Each

4 to 5 ft.....	\$8 25	6 to 7 ft.....	\$13 50
5 to 6 ft.....	11 00		

LAGERSTROEMIA indica (Crape Myrtle). This is a truly beautiful plant familiar to all southerners. The large clusters of unique fringed and wavy blossoms last late into the summer. We offer pink, watermelon-red, white and lavender.

2 to 3 ft.....	\$4 50	5 to 6 ft.....	\$13 50
3 to 4 ft.....	7 00	6 to 7 ft.....	18 50
4 to 5 ft.....	10 00	7 to 8 ft.....	\$25 00 up

MAGNOLIA acuminata See Shade Trees.

MAGNOLIA alba superba (Oriental Magnolia). Large shrub or small tree having very large, cup-shaped blooms, pinkish white in very early spring.

2 to 3 ft.....	\$7 50	4 to 5 ft.....	\$12 50
3 to 4 ft.....	10 00		

MAGNOLIA macrophylla. See Shade Trees.

MAGNOLIA rustica rubra (Purple Oriental Magnolia). Bushy growth. Large, saucer-like, reddish purple flowers in spring. Each

2 to 3 ft.....	\$6 00	4 to 5 ft.....	\$11 00
3 to 4 ft.....	7 50	5 to 6 ft.....	15 00

FLOWERING TREES, continued

MAGNOLIA soulangeana (Saucer Magnolia). Small tree with very large, creamy white flowers, more or less purplish outside and often fragrant. Blooms very early.

Each		Each	
2 to 3 ft.	\$6 00	4 to 5 ft.	\$11 00
3 to 4 ft.	7 50	5 to 6 ft.	15 00

MAGNOLIA soulangeana nigra. A dark red form of above, but more bushy growing and later blooming.

Prices same as above.

MAGNOLIA stellata (Star Magnolia). A round bush not over 10 to 12 ft. high. Pure white flowers 3 in. across.

Each		Each	
2 to 3 ft.	\$10 00	4 to 5 ft.	\$20 00
3 to 4 ft.	15 00		

MALUS (Flowering Crabapple)

Prices on all Crabapples (Except where noted)

Each		Each	
3 to 4 ft.	\$4 00	6 to 7 ft.	\$10 00
4 to 5 ft.	5 50	7 to 8 ft.	14 00
5 to 6 ft.	7 50	8 to 10 ft.	\$18 50 to 25 00

MALUS aldenhamensis. An upright tree of compact growth. Deep pink flowers of good size, having a slight orchid tint. Red fruits of medium size.

MALUS baccata (Siberian Crab). Upright tree with white flowers. Large red fruits.

MALUS floribunda (Showy Crab). A low-spreading, bushy tree. Deep pink buds opening to almost white. Small yellow fruits. A very free-flowering variety.

MALUS floribunda purpurea (Purple Showy Crab). Upright growth. The flowers are purplish red and the leaves are red in spring changing to bronze-green in summer. Red fruits.

MALUS ioensis plena

MALUS lemoinei

FLOWERING TREES, *continued*

MALUS floribunda rosea (Pink Showy Crab). A deep pink type with yellow fruits. The growth is low, bushy and wide-spreading.

MALUS floribunda scheideckeri (Scheidecker Crab). A dwarf tree of upright habit. Very showy, deep salmon-pink flowers fading to light pink. The blooms are semi-double and borne in large clusters. Very free flowering. Yellow fruits of medium size.

MALUS, Hopa (Hopa Crab). Light rose-red flowers in profusion, long lasting and non-fading. Vigorous, broad-growing tree, somewhat upright in habit. Fruits are medium size, red.

MALUS ioensis plena (Bechtel's Crab). A dwarf tree with large, full-double, pink flowers having a delightful fragrance. Neat, upright habit of growth.

	Each		Each
2 to 3 ft.	\$4 50	4 to 5 ft.	\$8 50
3 to 4 ft.	6 00		

MALUS, Katherine. A beautiful new variety with very large, rose-pink flowers. Prolific and free flowering. Growth is vigorous and upright. Red fruits of medium size.

MALUS lemoinei. A fine variety with dark red flowers of good size. Foliage bronze-green. Neat, upright habit of growth. Red fruits of medium size.

MALUS micromalus. Upright, rather vase shaped. Free flowering, light pink. The fruits are small, yellow.

PRUNUS
persica
(Flowering Peach)

PRUNUS subhirtella pendula
(Weeping Cherry)

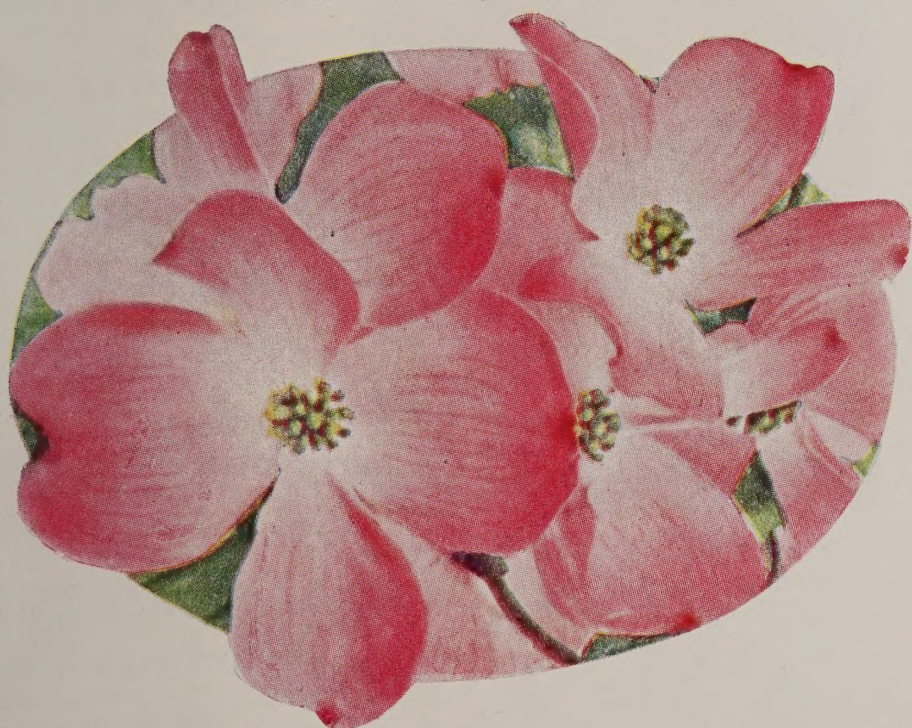

SYRINGA HYBRIDA, Chas. Joly

LAGERSTROEMIA INDICA, Red

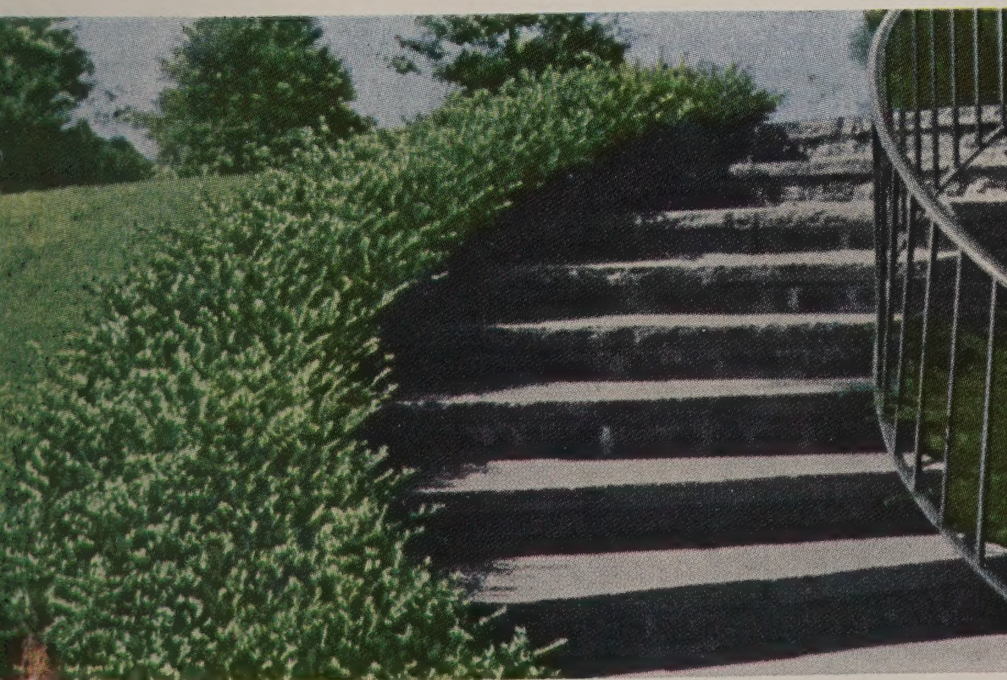

HYPERICUM, Hidcote

CORNUS florida rubra

ILEX crenata convexa

CAMELLIA,
Pink Perfection

FLOWERING
CRABAPPLE,
Hopa

CLEYERA japonica

FLOWERING TREES, continued

MALUS parkmani (Parkman Crab). A slow-growing, spready tree. Semi-double, pink flowers. Red fruits.

MALUS, Pink Weeping.

An unusual weeping type which resembles the well-known Weeping Cherry. Masses of deep pink, single flowers borne in profusion on the graceful, arching branches. A fine variety.

Each		Each	
3 to 4 ft.	\$6 00	5 to 6 ft.	\$11 00
4 to 5 ft.	8 50		

MALUS prunifolia (Pear-leaf Crab). Upright tree of neat habit. Deep pink buds, opening pure white. Dwarf, compact growing. Large, bright red fruits make this an outstanding variety.

MALUS, Red Silver. Upright, vigorous growth. Bronze-green leaves. The flowers are true red, and the fruits are dull red.

MALUS robusta (Cherry Crab). Flowers pure white. Fast, upright growth. Yellow fruits.

MALUS spectabilis alba plena. Full-double, white flowers. Yellow fruit. Upright growth.

MALUS spectabilis riversi. Double, soft pink flowers. Narrow, upright growth. Red fruits.

MALUS zumi. Dwarf, compact and low growing. Red buds, opening to white. Enormous quantities of very small, bright red fruit make this one of the most desirable varieties.

Each		Each	
3 to 4 ft.	\$5 00	5 to 6 ft.	\$9 00
4 to 5 ft.	7 00	6 to 7 ft.	12 50

Prices on all Malus (Except where noted)

Each		Each	
3 to 4 ft.	\$4 00	6 to 7 ft.	\$10 00
4 to 5 ft.	5 50	7 to 8 ft.	14 00
5 to 6 ft.	7 50	8 to 10 ft.	\$18 50 to 25 00

MELIA azedarach (Umbrella-tree). A small, dome-shaped tree, branching in umbrella-like fashion. Lilac-like flowers and yellow fruit.

Each		Each	
4 to 5 ft.	\$7 50	6 to 7 ft.	\$12 50
5 to 6 ft.	10 00	7 to 8 ft.	17 50

OXYDENDRUM arboreum (Sourwood). Creamy white racemes of flowers in mid-summer. Brilliant scarlet foliage in fall. Attractive tree.

Each		Each	
3 to 4 ft.	\$4 00	5 to 6 ft.	\$8 00
4 to 5 ft.	6 00	6 to 7 ft.	11 50

PRUNUS, Flowering Plum

PRUNUS blireana. Beautiful double pink flowers. Upright growth. Reddish bronze foliage.

Each		Each	
3 to 4 ft.	\$4 75	5 to 6 ft.	\$9 00
4 to 5 ft.	7 00		

PRUNUS blireana, Newport. Blush-pink, semi-double flowers. Foliage reddish purple.

Prices same as above.

PRUNUS pissardi. Blush-pink flowers in spring, followed by purple fruit. Purple foliage. Vigorous growth.

Prices same as above.

PRUNUS, Thundercloud. Dark red-purple foliage throughout the summer. Upright growth and light pink blossoms. A very handsome flowering tree.

Prices same as above.

FLOWERING TREES, continued

PHELLODENDRON amurense (Cork-tree). An ornamental tree with particularly attractive aromatic foliage. A dwarf tree, very desirable for landscape planting.

	Each		Each
3 to 4 ft.	\$6 00	5 to 6 ft.	\$10 00
4 to 5 ft.	8 00		

PRUNUS PERSICA, Flowering Peach

Fast-growing trees of spreading growth with spectacular, full-double flowers in profusion. We offer pink, red, and white.

	Each		Each
3 to 4 ft.	\$4 50	5 to 6 ft.	\$8 00
4 to 5 ft.	6 00	6 to 7 ft.	10 00

PRUNUS, Flowering Cherry

PRUNUS serrulata, Amanogawa. Semi-double, pink flowers. Narrow, column-like growth. Outstanding.

	Each		Each
3 to 4 ft.	\$6 00	4 to 5 ft.	\$8 50

PRUNUS serrulata, Kwansan. Full-double, deep pink blooms, fading very little. Late flowering. Tree upright.

	Each		Each
3 to 4 ft.	\$6 00	5 to 6 ft.	\$11 00
4 to 5 ft.	8 00	6 to 7 ft.	15 00

PRUNUS serrulata, Mt. Fugi. Semi-double flowers opening to pure white from pinkish buds. Flowers early before leaves appear. The showiest of all the Flowering Cherries. Tree of upright, spreading growth.

	Each		Each
3 to 4 ft.	\$6 50	5 to 6 ft.	\$12 50
4 to 5 ft.	9 00		

PRUNUS serrulata, Kwansan

FLOWERING TREES, continued

PRUNUS subhirtella autumnalis. A fall-blooming Flowering Cherry. The flowers are light pink, semi-double, and quite cover the bush-like tree.

Each		Each	
3 to 4 ft.	\$6 00	5 to 6 ft.	\$11 00
4 to 5 ft.	8 00	6 to 7 ft.	15 00

PRUNUS subhirtella pendula (Weeping Japanese Cherry). Large, umbrella-like heads on 6-ft. standards, making a fountain-like appearance each spring when covered with their spectacular flowers.

Each		Each	
1 yr.	\$8 50	4 yr.	\$22 50
2 yr.	12 50	2 to 2½-in. cal.	30 00
3 yr.	16 50	2½ to 3-in. cal.	40 00

PRUNUS subhirtella pendula rosea florepleno (Double Pink Weeping Cherry). A double type with deep pink flowers.

Prices same as above.

STEWARTIA pseudo-camellia (Japanese Stewartia). Small, upright tree with silvery white, camellia-like blooms in summer. Beautiful fall-coloring foliage.

Each		Each	
3 to 4 ft.	\$6 00	5 to 6 ft.	\$12 50
4 to 5 ft.	9 00	6 to 7 ft.	17 50

VITEX agnus-castus (Chaste-tree). A large shrub with gray-green foliage and clear lilac-blue flowers in spikes during late summer.

Each		Each	
2 to 3 ft.	\$3 50	4 to 5 ft.	\$6 00
3 to 4 ft.	4 50		

SHADE TREES

Valuable to the home owner in many ways. Trees not only furnish cool shade but they act as a frame or setting for a dwelling and may be used to screen unsightly objects. Also, trees act as a protector for many kinds of plants, shielding them from the hot sun in summer. Their green leaves in summer and bare branches in winter are a source of much pleasure to the true nature lover.

Specimen Shade Tree Prices

The following schedule represents our average planted prices on all types of larger specimen shade trees which we can furnish. All are transplanted with an ample ball of earth.

CALIBER (diameter of trunk)

Each		Each	
1 to 1½ in.	\$20 00	3½ to 4 in.	\$70 00
1½ to 2 in.	25 00	4 to 4½ in.	90 00
2 to 2½ in.	35 00	4½ to 5 in.	110 00
2½ to 3 in.	45 00	5 to 5½ in.	135 00
3 to 3½ in.	55 00		

ACER, The Maples

ACER dasycarpum (Silver Maple). Light green foliage, silvery beneath. A large spreading tree, very fast growing. Does well in a wet location.

Each		Each	
6 to 8 ft., B&B.	\$9 00	8 to 10 ft., B&B.	\$12 50

ACER palmatum atropurpureum (Red-leaf Maple). See Flowering Trees, page 26.

ACER platanoides (Norway Maple). A low-growing, rounded or dome-shaped tree with large, shining leaves. Requires well-drained soil. Fast growing.

Each		Each	
5 to 6 ft., B&B.	\$8 00	6 to 8 ft., B&B.	\$10 00

SHADE TREES, continued

ACER rubrum

ACER platanoides schwedleri (Schwedler Maple). Similar to above except leaves are purple-red in spring, changing to bronze-green in summer.

Each		Each	
5 to 6 ft., B&B....	\$8 50	7 to 8 ft., B&B.....	\$13 50
6 to 7 ft., B&B....	11 00		

ACER platanoides schwedleri nigra (New Norway Maple, Crimson King). Plant Patent 735. The beautiful dark crimson-red foliage holds its color from spring to frost. One of the finest new trees to be introduced in years.

Each		Each	
5 to 6 ft., B&B....	\$9 00	7 to 8 ft., B&B.....	\$15 00
6 to 7 ft., B&B....	12 00		

ACER rubrum (Scarlet-blooming Maple). Green leaves in spring and summer, turning to red, yellow or orange in fall. Small red blooms in spring. A medium fast-growing tree thriving under adverse conditions where other Maples fail to grow.

Each		Each	
6 to 8 ft., B&B....	\$9 00	10 to 12 ft., B&B...	\$15 00
8 to 10 ft., B&B...	12 00		

ACER saccharum (Sugar Maple). A tall-growing tree of upright habit with light green leaves in summer, changing to many hues of red, gold and copper in fall. A truly fine shade tree requiring good drainage to thrive. Medium slow growth.

Each		Each	
6 to 8 ft., B&B..	\$10 00	10 to 12 ft., B&B...	\$17 50
8 to 10 ft., B&B..	13 50		

AESCULUS hippocastanum (European Horsechestnut). A stately tree to 70 ft. with 10-in. panicles of white flowers.

Each	
6 to 8 ft., B&B.....	\$12 00

SHADE TREES, continued

AESCULUS pavia (Red Horsechestnut). A dwarf, slow-growing tree with dark red panicles. Very showy.

Each		Each	
4 to 5 ft.	\$8 25	6 to 7 ft.	\$15 00
5 to 6 ft.	10 00		

ALBIZZIA julibrissin (Mimosa). Pale green, fern-like foliage and broad heads of light pink, fuzzy flowers in summer.

Each		Each	
6 to 8 ft., B&B...	\$9 00	10 to 12 ft., B&B...	\$15 00
8 to 10 ft., B&B...	12 00		

BETULA pendula (alba) (European White Birch). Tree with white bark peeling off in layers. Drooping branches.

Each		Each	
6 to 8 ft., B&B...	\$10 00	10 to 12 ft., B&B...	\$17 50
8 to 10 ft., B&B...	13 50		

BETULA pendula gracilis (Cutleaf weeping Birch). A graceful tree with white bark and light green, finely cut foliage. The branches become pendulous with age and produce a weeping effect.

Prices same as above.

CARPINUS caroliniana (American Hornbeam). A slow-growing tree with small, glossy foliage. Attractive fall colors. An excellent subject for wet locations.

Each		Each	
6 to 8 ft., B&B...	\$12 50	8 to 10 ft., B&B...	\$17 50

CELTIS occidentalis (Hackberry). A native tree of spreading growth. Small, green foliage.

Each		Each	
6 to 8 ft., B&B...	\$10 00	8 to 10 ft., B&B...	\$13 50

FAGUS americana (American Beech). A stately tree of slow growth. Rich green, small foliage. Large growing.

Each		Each	
6 to 8 ft., B&B...	\$12 50	8 to 10 ft., B&B...	\$17 50

FAGUS sylvatica purpurea (Purple Beech). A compact ornamental tree having small, purple-red foliage throughout the season. Very slow growing.

Each		Each	
3 to 4 ft., B&B...	\$15 00		

FRAXINUS americana (White Ash). A fast-growing tree of upright, oval shape. Dense, pinnate foliage.

Each		Each	
6 to 8 ft., B&B...	\$10 00	8 to 10 ft., B&B...	\$13 50

GINKGO biloba (Maidenhair-tree). Large tree with a broad, branched head and fan-shaped cut or divided foliage. Because of its freedom from insect pests it is an excellent lawn specimen or street tree. The Ginkgo is the oldest tree in the world, being the only tree left over to us from a far prehistoric age.

Each		Each	
5 to 6 ft., B&B...	\$7 50	7 to 8 ft., B&B...	\$12 50
6 to 7 ft., B&B...	9 00	8 to 10 ft., B&B...	15 00

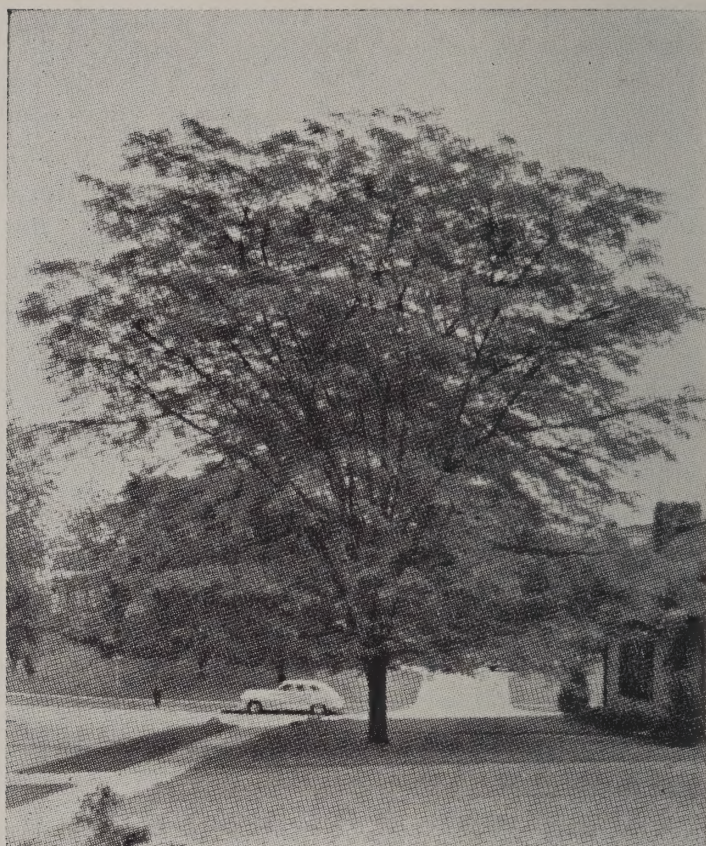

GLEDITSIA triacanthos inermis (Thornless Honeylocust). A hardy, fast-growing tree with finely cut foliage. Greenish white flowers in racemes, followed by long brown seed pods. Spreading branches, almost thornless.

Each		Each	
6 to 8 ft., B&B...	\$9 00	10 to 12 ft., B&B...	\$15 00
8 to 10 ft., B&B...	12 00		

GLEDITSIA triacanthos inermis aurea (Sunburst Locust). Plant Patent 1313. A variety of above with bright golden bronze tips of new growth.

Each		Each	
7 to 8 ft., branched	\$18 50		
8 to 10 ft., branched	23 50		

SHADE TREES, continued

GLEDITSIA triacanthos inermis Moraine

GLEDITSIA triacanthos inermis Moraine (Moraine Locust). Plant Patent 836. This is a thornless and seedless variety of Honeylocust. Well-formed and symmetrical, fast growth.

Each	
7 to 8 ft., branched.....	\$18 50
8 to 10 ft., branched.....	23 50

GYMNOCLADUS dioica (Kentucky Coffee-tree). Tree with thick branches and gnarled branchlets. This peculiar formation gives the tree an appearance of great age. It bears large red-brown pods up to 10 in. long. An interesting specimen, said to repel common houseflies.

Each	Each
6 to 8 ft., B&B...\$10 00	10 to 12 ft., B&B...\$17 50
8 to 10 ft., B&B... 13 50	

LIQUIDAMBAR styraciflua (Sweet-Gum). Pyramidal tree growing in swampy places. The foliage turns to a bright scarlet in early autumn and in winter the corky branches and deeply furrowed bark attract attention.

Each	Each
6 to 8 ft., B&B...\$9 00	8 to 10 ft., B&B...\$12 50

LIRIODENDRON tulipifera (Tulip-tree). A lovely tree with greenish yellow, tulip-like flowers in June. Smooth, dark gray bark. Leaves are bright green with square ends.

Each	Each
6 to 8 ft., B&B...\$9 00	8 to 10 ft., B&B...\$12 50

MAGNOLIA acuminata (Cucumber-tree). An imposing tree of tall, upright habit. Greenish flowers and large leaves. Slow growing.

Each	Each
5 to 6 ft., B&B...\$10 00	6 to 8 ft., B&B....\$13 50

MAGNOLIA macrophylla (Large-leaf Cucumber-tree). Conspicuous for its very large leaves and large, fragrant flowers. Slow growth.

Each	Each
4 to 5 ft., B&B...\$9 00	6 to 7 ft., B&B....\$16 50
5 to 6 ft., B&B... 12 50	7 to 8 ft., B&B.... 22 50

MELIA azedarach. See Flowering Trees.

QUERCUS palustris

SHADE TREES, continued

PLATANUS occidentalis (American Plane-tree). A large, rapid-growing tree having large, dull green leaves. The gray bark peels to expose the new white bark in patches, giving the tree a rustic appearance.

Each		Each	
6 to 8 ft., B&B...	\$9 00	10 to 12 ft., B&B...	\$15 00
8 to 10 ft., B&B...	12 00		

PLATANUS orientalis (Oriental Plane-tree). A large tree with short trunk and broad head. Has smooth, light-colored bark and is a member of the Sycamore family.

Each		Each	
6 to 8 ft., B&B...	\$10 00	10 to 12 ft., B&B...	\$17 50
8 to 10 ft., B&B...	13 50		

POPULUS nigra italica (Lombardy Poplar). Tall, spike-like. Good for landscape work and screens. Branches to the ground.

Each		Each	
4 to 6 ft., N.R....	\$3 00	8 to 10 ft., N.R....	\$5 50
6 to 8 ft., N.R....	4 00	10 to 12 ft., N.R....	7 50

QUERCUS coccinea (Scarlet Oak). Gray, smooth-barked tree of pyramidal growth. Scarlet foliage in autumn.

Each		Each	
6 to 8 ft., B&B...	\$12 50	8 to 10 ft., B&B...	\$16 50

QUERCUS nigra (Water Oak). A low, spreading tree with dark green, elliptical leaves. Does well in wet locations.

Each		Each	
6 to 8 ft., B&B...	\$12 50	8 to 10 ft., B&B...	\$16 50

QUERCUS palustris (Pin Oak). Most widely planted of all the Oaks. Neat appearance, almost conical shape. Medium fast growth.

Each		Each	
6 to 8 ft., B&B...	\$12 50	8 to 10 ft., B&B...	\$16 50

QUERCUS phellos (Willow Oak). Light green, Willow-like leaves. Graceful, spreading growth.

Each		Each	
6 to 8 ft., B&B...	\$12 50	8 to 10 ft., B&B...	\$16 50

SHADE TREES, continued

QUERCUS rubra (Red Oak). Large, spreading tree, symmetrical growth. Red and scarlet foliage in autumn.

Each	Each
6 to 8 ft., B&B...\$12 50	8 to 10 ft., B&B...\$16 50

QUERCUS virginiana (Live Oak). A wide-spreading slow-growing tree with glossy evergreen leaves.

	Each		Each
3 to 4 ft., B&B....	\$9 00	5 to 6 ft., B&B.....	\$15 00
4 to 5 ft., B&B....	12 00		

QUERCUS virginiana darlingtonia (Darlington Oak).
An evergreen tree similar to above except it is taller
growing, with narrow leaves.

Prices same as above.

ROBINIA pseudoacacia (Black Locust). Fast growing and drought resistant. Small white flowers in late spring.

8 to 10 ft., B&B...\$12 00 | 10 to 12 ft., B&B...\$15 00

ROBINIA pseudoacacia, Idaho Variety. Beautiful purple-red, wisteria-like blooms in spring. Rapid, spreading growth. Each

6 to 8 ft., B&B...	\$12 50	10 to 12 ft., B&B...	\$18 50
8 to 10 ft., B&B...	15 00		

SALIX babylonica (Weeping Willow). A lovely, weeping, green-stem tree with narrow leaves. Excellent planted by lakes or streams.

	Each		Each
5 to 6 ft., B&B....	\$6 00	8 to 10 ft., B&B....	\$10 00
6 to 8 ft., B&B....	7 50		

SALIX discolor (Pussy Willow). A small, shrubby tree. Attractive blossoms may be forced inside in winter.

	Each		Each
2 to 3 ft., B&B....	\$2 50	4 to 5 ft., B&B.....	\$4 50
3 to 4 ft., B&B....	3 50		

PLATANUS orientalis

TILIA americana

SOPHORA japonica (Japanese Pagoda-tree). This is a dense, round-headed tree growing large and bearing yellowish flowers in panicles during late summer.

Each	Each
4 to 5 ft., B&B...\$10 00	5 to 6 ft., B&B....\$15 00

TILIA americana (American Linden) An upright tree of medium size having large, rounded green leaves. Bark of the new growth is red.

Each	Each
6 to 8 ft., B&B...\$12 50	8 to 10 ft., B&B....\$16 50

ULMUS alata (Cork Elm). A rapid-growing tree of bushy, upright habit, which is adaptable to most locations. Disease and insect resistant. This is the best Elm.

Each	Each
6 to 8 ft., B&B...\$9 00	8 to 10 ft., B&B....\$12 50

ULMUS americana (American Elm). One of America's best-loved and most widely planted trees. A fast-growing tree with a spreading, vase-like shape. The foliage is green and medium large. Native in many localities.

Each	Each
6 to 8 ft., B&B...\$9 00	8 to 10 ft., B&B....\$12 50

ULMUS parvifolia (Chinese Elm). A very rapid-growing, upright tree with small Elm leaves. Thick growth.

Each	Each
6 to 8 ft., B&B...\$9 00	8 to 10 ft., B&B....\$12 50

Specimen Shade Tree Prices

The following schedule represents our average planted prices on all types of larger specimen shade trees which we can furnish. All are transplanted with an ample ball of earth.

CALIBER (diameter of trunk)

Each		Each	
1 to 1½ in.	\$20 00	3½ to 4 in.	\$70 00
1½ to 2 in.	25 00	4 to 4½ in.	90 00
2 to 2½ in.	35 00	4½ to 5 in.	110 00
2½ to 3 in.	45 00	5 to 5½ in.	135 00
3 to 3½ in.	55 00		

DECIDUOUS FLOWERING SHRUBS

In this large group there are plants suitable for every purpose. The shrubs offer abundant flowers, beautiful foliage and fruits, and interesting branches and stems in winter. Most of them are relatively inexpensive and the easiest of all ornamental plants to grow. Our list is most complete and by careful selection of varieties one can have an interesting shrub planting throughout the year. By adding a few of our broadleaf evergreens, shrub plantings can be made more beautiful, especially in winter.

Prices on all Flowering Shrubs (Except where noted)

	1 to 9	10 or more,
	Each	each
2 to 3 ft., B&B.....	\$2 50	\$2 00
3 to 4 ft., B&B.....	3 50	2 50
4 to 5 ft., B&B.....	4 50	3 50
5 to 6 ft., B&B.....	6 00	5 00

10 or more rate will apply to all purchases of 10 or more flowering shrubs regardless of combination of varieties.

ARONIA arbutifolia (Red Chokeberry). An ornamental shrub with bright red fruit in autumn, which remains through winter. White flowers.

BERBERIS thunbergi (Japanese Barberry). This well-known shrub, if grown naturally, makes fine specimens bearing small, inconspicuous flowers in spring followed by a showy crop of vivid scarlet berries in the fall.

	10 or more,
	Each
18 to 24 in.....	\$2 50
2 to 2½ ft.....	3 00

BERBERIS thunbergi atropurpurea (Red-leaved Barberry). Similar to the above, but when planted in full sun the foliage is bright red-purple.

	10 or more,
	Each
18 to 24 in.....	\$2 50
2 to 2½ ft.....	3 00
2½ to 3 ft.....	4 00

BERBERIS thunbergi atropurpurea nana (Dwarf Red-leaved Barberry). A very dwarf, slow-growing form with compact growth.

	Each	Each
6 to 8 in.....	\$1 50	8 to 10 in.....\$2 00

BUDDLEIA (Butterfly-bush). These beautiful shrubs, beloved by the butterflies, are sometimes called Summer Lilacs. They grow to medium height and bear long spikes of flowers from midsummer to frost. They should be cut back severely each spring before growth starts. We offer white, pink, purple and red.

CALLICARPA americana (Beauty-berry). A shrub to 6 ft. Has 6-in. foliage and pink flowers from May to July, followed by violet fruit.

CALLICARPA purpurea (French Beauty-berry). Similar to above but having smaller leaves and blue berries.

CALYCANTHUS floridus (Sweet Shrub). Also known as Carolina Allspice and Strawberry Shrub. A graceful shrub 7 to 8 ft. high with velvety maroon-colored flowers.

	10 or more,
	Each
18 to 24 in.....	\$2 50
2 to 3 ft.....	3 00
3 to 4 ft.....	4 00

CYDONIA japonica

DECIDUOUS FLOWERING SHRUBS, continued

CARYOPTERIS, Blue Mist (Blue Spirea). Beautiful deep blue clusters of flowers in autumn. A very hardy, dwarf shrub.

	Each	10 or more, each
18 to 24 in.....	\$2 50	\$2 00
2 to 3 ft.....	3 00	2 50

CHIMONANTHUS praecox (Wintersweet). A very desirable plant which will grow well in a mild climate. It has yellow blossoms in winter and may be grown as a bush or trained on a wall.

	Each	10 or more, each
18 to 24 in.....	\$4 50	\$3 50
2 to 3 ft.....	6 00	5 00

CHIONANTHUS virginica. See Flowering Trees, page 26.

CLETHRA alnifolia (Sweet Pepperbush). Shapely shrub with erect spikes of white flowers filling the air with a peppery fragrance.

	Each	10 or more, each
2 to 3 ft.....	\$3 00	\$2 50

CLETHRA alnifolia rosea (Pink Pepperbush). Spikes of deep pink blossoms on a neat, upright shrub of dwarf habit. Spicy fragrance.

	Each	10 or more, each
18 to 24 in.....	\$3 50	\$3 00
2 to 3 ft.....	5 00	4 00

CORNUS alba sibirica (Tatarian Dogwood). An upright shrub of medium height having creamy white blooms. The stems remain orange-red all winter.

CORNUS sanguinea (Bloodtwig Dogwood). An interesting large shrub having greenish white flowers and blue-black berries. The branches are deep red, adding much color during winter.

CYDONIA japonica nivalis (White Flowering Quince). A medium-growing, thorny shrub with beautiful white flowers in spring, followed by very fragrant, lemon-like fruit.

	Each	10 or more, each
18 to 24 in.....	\$5 00	\$4 00
2 to 2½ ft.....	6 00	5 00
2½ to 3 ft.....	7 50	6 00

DECIDUOUS FLOWERING SHRUBS, *continued*

CYDONIA japonica pygmaea (Dwarf Flowering Quince).

A dwarf, spreading form with orange-red flowers.

	Each	10 or more, each
18 to 24 in.....	\$3 00	\$2 50
2 to 2½ ft.....	4 00	3 00

CYDONIA japonica rubra (Red Flowering Quince).

The well-known flowering Quince often called Japonica.

Large flowers, deep watermelon-red in early spring.

Large, lemon-like fruits in fall.

	Each	10 or more, each
18 to 24 in.....	\$3 00	\$2 50
2 to 2½ ft.....	4 00	3 00
2½ to 3 ft.....	5 00	4 00

CYTISUS scoparius (Scotch Broom). A large, dense shrub with green stems giving the appearance of an evergreen in winter. Yellow flowers in profusion in late spring.

DEUTZIA gracilis. A true dwarf flowering shrub, rarely over 3 ft. Masses of dazzling white flowers on arching branches in May.

	Each	10 or more, each
12 to 15 in.....	\$2 50	\$2 00
15 to 18 in.....	3 00	2 50
18 to 24 in.....	4 00	3 00

DEUTZIA lemoinei. A dwarf shrub having masses of pure white, dainty flowers in spring. Arching branches.

	Each	10 or more, each
15 to 18 in.....	\$2 50	\$2 00
18 to 24 in.....	3 00	2 50
2 to 2½ ft.....	4 00	3 00

DEUTZIA, Pride of Rochester. A very large, bushy shrub. Huge panicles of white, bell-shaped flowers stained pink at base. Upright growth.

ELAEAGNUS angustifolia (Russian Olive). The leaves are small, gray-green on top and silver beneath. Tall, upright growth. Yellow flowers in spring.

ENKIANTHUS campanulatus. A tall shrub with pendulous, bell-shaped flowers, yellowish veined with red, of unusual appearance. It is brilliantly colored in the fall.

	Each	10 or more, each
18 to 24 in.....	\$3 00	\$2 50
2 to 2½ ft.....	4 50	3 50
2½ to 3 ft.....	6 00	5 00

EUONYMUS alatus. A wide-spreading shrub growing tall and having winged branches. It is best known for its magnificent red foliage in the fall.

	Each	10 or more, each
18 to 24 in.....	\$4 00	\$3 00
2 to 3 ft.....	6 00	4 50
3 to 4 ft.....	7 50	6 00

EUONYMUS atropurpureus (Burning-bush). A large shrub with yellow leaves in the fall, followed by scarlet fruit.

Prices same as above.

EXOCHORDA racemosa (Pearl-bush). A large shrub having starry flowers of purest white. Rapid, upright growth.

FORSYTHIA, Lynwood Gold

FORSYTHIA intermedia spectabilis (Showy Golden Bells). Spectacular deep golden flowers in profusion early in the spring. Our most popular flowering shrub.

FORSYTHIA, Lynwood Gold. Erect branches completely smothered under deep yellow flowers; similar to spectabilis but much improved. A very fine new variety.

FORSYTHIA, Spring Glory. Unbelievable quantities of pale yellow flowers in early spring. Undoubtedly will replace other types in general use when better known.

FORSYTHIA suspensa (Weeping Forsythia). A variety whose branches often bend to the ground, rooting at the tips. Masses of yellow blooms in spring.

HAMAMELIS mollis (Chinese Witch-hazel). A tall shrub with showy flowers having golden yellow petals and purplish red calyx.

HAMAMELIS, virginiana (Common Witch-hazel). Large shrub, native Canada to Florida. Yellow flowers in autumn. Calyx brownish yellow.

HIBISCUS syriacus (Rose-of-Sharon or Althea). Strong, upright-growing shrub blooming in midsummer. We offer single pink, blue and white.

HYDRANGEA arborescens grandiflora (Hills-of-Snow). A dwarf shrub with large heads of white flowers in July.

	Each	10 or more, each
18 to 24 in.....	\$2 50	\$2 00
2 to 3 ft.....	3 00	2 50

HYDRANGEA macrophylla otaksa (French Hydrangea). Dwarf plants with big heads of pink or blue flowers in midsummer. Color will depend upon chemical composition of the soil. They like shade and moisture.

	Each	10 or more, each
1 yr.....	\$2 50	\$2 00
2 yr.....	3 50	3 00
3 yr.....	5 00	4 00

DECIDUOUS FLOWERING SHRUBS, continued

HYDRANGEA paniculata grandiflora (Peegee Hydrangea). The familiar, small, tree-like shrub that grows 8 to 10 ft., with great heads of white flowers which gradually turn pink.

HYPERICUM calycinum. See Vines and Ground Covers.

HYPERICUM, Hidcote (Goldflower). A dwarf shrub having large, brush-like, deep golden yellow flowers in midsummer with some intermittent bloom until frost.

	Each	10 or more, each
15 to 18 in.....	\$2 50	\$2 00
18 to 24 in.....	3 00	2 50

HYPERICUM prolificum (Shrub St. Johnswort). Yellow flowers in summer. Medium growth; narrow green leaves.

	Each	10 or more, each
18 to 24 in.....	\$2 50	\$2 00
2 to 3 ft.....	3 00	2 50
3 to 4 ft.....	3 50	3 00

ILEX verticillata (Winterberry). A deciduous shrub of medium growth having large leaves and bright red berries in large quantities in autumn. A very showy and colorful shrub.

	Each	10 or more, each
18 to 24 in.....	\$3 00	\$2 50
2 to 3 ft.....	4 00	3 50
3 to 4 ft.....	6 00	5 00
4 to 5 ft.....	8 50	7 50

JASMINUM nudiflorum (Winter Jasmine). A small, spreading shrub bearing bright yellow flowers early in the spring before the foliage.

	Each	10 or more, each
12 to 18 in.....	\$2 00	\$1 50
18 to 24 in.....	2 50	1 75
2 to 3 ft.....	3 00	2 25

KOLKWITZIA amabilis (Beauty-bush). A large-growing shrub, very upright, with slightly arching branches covered with gay light pink bells in May and June.

LAGERSTROEMIA indica (Crape Myrtle). See Flowering Trees.

LONICERA fragrantissima (Winter Honeysuckle). The deliciously fragrant, creamy flowers open on warm days during late winter and early spring. The shrub is large, with good foliage, some of which lasts most of the winter.

LONICERA morrowi. (Morrow's Honeysuckle). A wide-spreading shrub with small yellow flowers in spring, followed by red fruits.

LONICERA tatarica (Tatarian Honeysuckle). Pink flowers in spring, followed by scarlet berries during summer. Tall, vigorous growth and good foliage.

MYRICA pennsylvanica (Bayberry). A slow-growing shrub of medium size, with narrow, aromatic foliage. Grayish white berries in winter.

	Each	10 or more, each
18 to 24 in.....	\$6 00	\$5 00
2 to 2½ ft.....	7 50	6 50

PHILADELPHUA *virginalis*

PHILADELPHUS coronarius (Fragrant Mock-orange).
A shrub of medium size with white scented flowers in late spring.

PHILADELPHUS grandiflorus (Mock-orange). A tall shrub with very large white blossoms in June.

PHILADELPHUS, Snowflake (Snowflake Mock-orange).
Upright growth. Pure white, frilled blooms in late spring.

	Each	10 or more, each
2½ to 3 ft.....	\$4 00	\$3 50
3 to 3½ ft.....	5 00	4 50

PHILADELPHUS virginalis (Virginal Mock-orange).
An upright shrub with semi-double flowers of pure glistening white in June. One of the finest shrubs.

	Each	10 or more, each
2½ to 3 ft.....	\$3 00	\$2 50
3 to 3½ ft.....	3 50	3 00

POLYGONUM amplexicaule (Knotweed). A shrub growing 6 ft. in a season and dying back to ground in winter. Pink flowers borne singly or in clusters in September and October. Can be dried for use in winter.

	Each	10 or more, each
2 yr.....	\$3 50	\$3 00

PRUNUS glandulosa alba plena (Double White-flowering Almond). A small shrub bearing many double white flowers in early spring.

	Each	10 or more, each
18 to 24 in.....	\$3 00	\$2 50
2 to 2½ ft.....	3 50	3 00

PRUNUS glandulosa flore plena (Double Pink-flowering Almond). Variety of the above with pink flowers. The white and pink make a very pretty display when planted close together.

Prices same as above.

DECIDUOUS FLOWERING SHRUBS, *continued*

PUNICA granatum florepleno (Double-flowering Pomegranate). A beautiful shrub of bush habit having full, double, carnation-like orange-red flowers in summer.

		10 or more, Each each
18 to 24 in.....	\$3 50	\$3 00
2 to 3 ft.....	5 00	4 00

RHODOTYPOS kerrioides (Jetbead). Single white flowers on compact plants of medium size in spring, followed by jet-black fruits.

		10 or more, Each each
18 to 24 in.....	\$2 50	\$2 00
2 to 3 ft.....	3 00	2 50

ROSA harisoni (Harison's Yellow Rose). Full, double, rich yellow blooms on upright, thorny bushes. Medium height.

		10 or more, Each each
2 to 3 ft.....	\$3 50	\$3 00

ROSA hugonis (Golden Rose of China). Vigorous-growing, upright, thorny branches. Pale yellow, single flowers in spring.

		10 or more, Each each
2 to 3 ft.....	\$3 00	\$2 50
3 to 4 ft.....	4 00	3 50

ROSA, Robin Hood (Musk Rose). The improved Hedge Rose. Dense, compact growth. Brilliant cherry-red flowers in large clusters in spring, followed by intermittent bloom during most of summer.

		10 or more, Each each
2 yr.....	\$2 00	\$1 50

ROSA rugosa (Shrub Rose). Medium-growing, bushy, shrub-like plants suitable for use in the shrub border. Pink or white flowers in midsummer.

		10 or more, Each each
2 to 3 ft.....	\$3 00	\$2 50

SORBARIA sorbifolia (False-Spirea). A shrub of medium height, with large plumes of creamy white flowers in late spring. Very showy.

SPIRAEA, Anthony Waterer (Bumulda Spirea). Low, dwarf shrub of compact growth, having flat heads of rose-pink flowers, midsummer to frost.

		10 or more, Each each
18 to 24 in.....	\$3 00	\$2 50
2 to 2½ ft.....	3 50	3 00

SPIRAEA billiardi (Billiard Spirea). A shrub of medium height, having flower spikes, similar to lilacs, in midsummer. Available in pink or white.

SPIRAEA douglasi (Douglas Spirea). Similar to Billiard Spirea but having more compact growth and rose-pink flower spikes.

SPIRAEA prunifolia (Bridal-wreath). Medium height, upright growing, with pure white, double button-like flowers in spring.

SPIRAEA reevesiana (Reeves Spirea). Tall, upright growth. Single white flowers in clusters in early spring.

SPIRAEA van houttei

SPIRAEA thunbergi (Babys-breath Spirea). Medium dwarf, bushy growth with small, pure white flowers in profusion. The earliest-blooming Spirea.

	Each	10 or more, each
18 to 24 in.....	\$2 50	\$2 00
2 to 3 ft.....	3 00	2 50
3 to 4 ft.....	4 50	3 50

SPIRAEA van houttei (Van Houtte Spirea). A medium large shrub of dense, upright habit with graceful, arching branches. Large umbels of pure white flower clusters in spring. This is the most floriferous and popular of the Spireas.

STEWARTIA pseudo-camellia. See Flowering Trees.

SYMPHORICARPOS albus (racemosus) (Snowberry).

A willowy shrub to 3 ft. with pinkish flowers, followed by snow-white, waxy fruit.

	Each	10 or more, each
18 to 24 in.....	\$2 50	\$2 00
2 to 3 ft.....	3 00	2 50
3 to 4 ft.....	3 50	3 00

SYMPHORICARPOS vulgaris (Coralberry). Similar to above, except the berries are red. A native shrub useful for difficult locations. *Prices same as above.*

SYRINGA, Lilac

Popular, well-known, spring-blooming shrubs with the characteristic Lilac fragrance. Excellent in mass plantings or as an individual specimen.

SYRINGA hybrida (Hybrid Lilac). Large, compact flower panicles in a variety of colors. Most have the characteristic Lilac fragrance.

We offer the following named varieties:

Chas. Joly. Double reddish purple.

Charles X. Single. Bluish purple.

Katharine Havemeyer. Double. Lilac-pink.

Ludwig Spaeth. Single. Purple.

Massena. Single. Purple-red.

Miss Shipman. Single. White.

Mme. Casimir Perier. Double. White.

Mixed Hybrids. All colors.

VIBURNUM opulus sterile

SYRINGA Species. Various other types of Lilacs which are worthy of recognition.

Persica (Persian Lilac). Tall, with rather small foliage. The flowers, which are pale lilac, are in loose panicles. Pleasing fragrance.

Villosa (Late Lilac). Rosy lilac to whitish flowers. Dense, rounded growth. Late flowering.

Vulgaris (Common Lilac). Its great, branching plants bear enormous quantities of deliciously fragrant, lilac-colored flowers in large panicles in May. An old garden favorite.

Vulgaris alba (Common White Lilac). Similar to the above but somewhat more dwarf and the blossoms are white.

Prices on all Lilacs:

	Each	10 or more, each
2 to 2½ ft.....	\$4 50	\$3 75
2½ to 3 ft.....	6 00	5 00
3 to 4 ft.....	8 50	7 50
4 to 5 ft.....	11 50	10 00

TAMARIX, Summer Glow (Tamarisk). Tall-growing shrub with feathery foliage and large spikes of rose-pink flowers in summer.

VIBURNUM

A large family of shrubs of varying size and habits. All have glorious fall colors and red or black fruits attractive to the birds.

VIBURNUM americanum (American Cranberry-bush).

A tall-growing shrub, having large heads of white flowers, followed by masses of scarlet, cranberry-like fruit. Very showy.

	Each	10 or more, each
2 to 3 ft.....	\$3 00	\$2 50
3 to 4 ft.....	4 25	3 50
4 to 5 ft.....	6 00	5 00

VIBURNUM burkwoodi (Burkwood Viburnum). Very fragrant, pinkish white flower clusters in early spring. Tall, upright growth.

	Each	10 or more, each
18 to 24 in.....	\$4 00	\$3 50
2 to 3 ft.....	6 00	5 00
3 to 4 ft.....	8 50	7 50

DECIDUOUS FLOWERING SHRUBS, continued

VIBURNUM carlesi (Korean Spice Viburnum). A shrub of medium growth and upright habit. Deliciously fragrant flowers in clusters. The buds are pink, opening to white. Early blooming.

	Each	10 or more, each
15 to 18 in.....	\$4 00	\$3 50
18 to 24 in.....	6 00	5 00
2 to 3 ft.....	8 50	7 50
3 to 4 ft.....	11 00	10 00

VIBURNUM dentatum (Arrowwood). Dense, upright growth. Creamy white flowers in clusters, followed by black fruits.

	Each	10 or more, each
2 to 3 ft.....	\$3 00	\$2 50
3 to 4 ft.....	4 25	3 50

VIBURNUM dilatatum (Linden Viburnum). A tall-growing shrub of upright habit. White flowers in spring, followed by large quantities of dark red berries.

	Each	10 or more, each
2 to 3 ft.....	\$3 00	\$2 50
3 to 4 ft.....	4 25	3 50
4 to 5 ft.....	6 00	5 00

VIBURNUM lantana (Wayfaring-tree). Large, vigorous-growing, tree-like shrub, having ruffled green foliage. White flowers in spring, followed by spectacular red berries in summer.

	Each	10 or more, each
2 to 3 ft.....	\$3 50	\$3 00
3 to 4 ft.....	4 50	4 00

VIBURNUM lentago (Nannyberry). Smooth, green leaves with creamy white flowers and black berries. Strong grower.

	Each	10 or more, each
2 to 3 ft.....	\$3 00	\$2 50
3 to 4 ft.....	4 00	3 50
4 to 5 ft.....	6 00	5 00
5 to 6 ft.....	8 50	7 00

VIBURNUM opulus sterile (American Snowball). Medium height, upright growing. Large, snowball-like blooms of purest white in spring.

	Each	10 or more, each
2 to 3 ft.....	\$3 50	\$3 00
3 to 4 ft.....	5 00	4 50
4 to 5 ft.....	7 50	6 00

VIBURNUM prunifolium (Black-haw). A large shrub with spreading branches. Pure white flower clusters in spring, followed by blue-black berries.

	Each	10 or more, each
2 to 3 ft.....	\$3 50	\$3 00
3 to 4 ft.....	4 50	4 00

VIBURNUM setigerum (Tea Viburnum). A narrow, upright grower with handsome leaves. White flowers in spring, followed by very decorative clusters of large scarlet berries. This is the showiest of all the red-berried Viburnums.

	Each	10 or more, each
2 to 3 ft.....	\$3 50	\$3 00
3 to 4 ft.....	5 00	4 50
4 to 5 ft.....	7 00	6 00

DECIDUOUS FLOWERING SHRUBS, continued

VIBURNUM tomentosum (Doublefile Viburnum). A medium large shrub with wide-spreading branches. Clusters of white flowers along the upper side of the branches, followed by fruits changing from scarlet to black in early fall.

	Each	10 or more, each
2 to 3 ft.....	\$3 50	\$3 00
3 to 4 ft.....	5 00	4 50
4 to 5 ft.....	7 50	6 00

VIBURNUM tomentosum plicatum. (Japanese Snowball). Similar to the above except the blooms are snowball-like and it bears no fruit.

	Each	10 or more, each
2 to 3 ft.....	\$3 50	\$3 00
3 to 4 ft.....	5 00	4 50
4 to 5 ft.....	7 50	6 00

VIBURNUM wrighti (Wright's Viburnum). Upright growing, with white flowers in spring followed by clusters of dark red berries which last well into winter.

	Each	10 or more, each
2 to 3 ft.....	\$3 50	\$3 00
3 to 4 ft.....	4 50	4 00
4 to 5 ft.....	6 00	5 50

VITEX agnus-castus. See Flowering Trees.

WEIGELA. Large, spreading shrubs flowering in spring and early summer. Widely planted and very popular. We offer the following varieties:

Amabilis. Rose-pink.

Eva Rathke. Dark red.

Rosea. Light pink.

Vaniceki. Bright red.

VINES AND GROUND COVERS

Plants useful for covering unsightly or bare walls, some of which offer lovely blossoms, as well as attractive foliage and neat growth. Some, such as Vinca, are the finest of ground covers.

CAMPSIS grandiflora (Chinese Trumpet-vine). Large, trumpet-like flowers in brilliant colors, yellow to orange. Vigorous climber.

	Each
2 yr.....	\$2 00

CAMPSIS radicans (Trumpet-vine). A strong-growing vine having orange-scarlet flowers.

	Each
2 yr.....	\$2 00

CELASTRUS scandens (Bittersweet). The familiar shrubby climber with masses of orange-red berries in fall.

	Each	Each
2 yr.....	\$2 00	3 yr..... \$3 00

HYPERICUM calycinum

VINES AND GROUND COVERS, continued

HEDERA helix hahni (Hahn's Ivy). The dense, shrubby growth makes this the finest ground cover of all, adaptable to either sun or shade. Small, dainty leaves.

	Each	Doz.	100
2¼-in. potted plants.....	\$0 45	\$5 00	\$40 00

HYDRANGEA petiolaris (Climbing Hydrangea). A high-climbing vine, clinging firmly to walls or tree trunks. White flowers in clusters borne in early summer.

2 yr.....	Each	\$3 00
-----------	------	--------

HYPERICUM calycinum (St. Johnswort). One of the finest ground covers, especially for sunny locations. Evergreen foliage. Rarely grows over 1 ft. tall. Bright golden yellow flowers intermittently from midsummer to frost.

	Each	Doz.
Small Clump.....	\$1 00	\$10 00
Large Clump.....	2 00	20 00

JUNIPERUS conferta (**Litoralis**). See Coniferous Evergreens.

LIRIOPE muscari (Big Blue Lily-turf). Narrow, lily-like foliage 15 to 20 in. tall, with spikes of deep lilac flowers, suggesting grape-hyacinths, borne in early fall. An excellent plant for the most difficult locations, doing well in either sun or shade.

	Each	100
Small Divisions.....	\$0 30	\$25 00
Clumps.....	75c to \$7.50	per doz.

LONICERA heckrottii (Everblooming Goldflame Honey-suckle). Beautiful flame, coral, and gold, trumpet-shaped flowers from June to frost. A vigorous-growing vine having rounded evergreen leaves, grayish beneath.

	Each	Each
2 yr.....	\$2 50	3 yr.....\$3 50

MONDO japonicus (Dwarf Lily-turf). This plant is sometimes known as *Ophiopogon Japonica*. Very similar to Liriope but more dwarf habit, usually only 8 to 10 in. tall.

	Each	100
Small Divisions.....	\$0 30	\$25 00
Clumps.....	75c to \$7.50	per doz.

PACHYSANDRA terminalis (Japanese Spurge). Low, dense-growing ground cover, usually only 8 to 10 in. tall, with dainty, evergreen leaves. An excellent plant for shady locations only.

	Each	Doz.	100
2¼-in. potted plants.....	\$0 45	\$5 00	\$40 00

VINES AND GROUND COVERS, continued

- PARTHENOCISSUS quinquefolia** (Virginia Creeper). Hardy deciduous climber of rapid growth, having glorious fall color. Each
2 yr.....\$2 50
- PARTHENOCISSUS tricuspidata lowi** (Low's Ivy). A dainty, deciduous vine of slow growth, having small leaves which turn red in autumn. Each
Potted plants.....\$1 50
- PARTHENOCISSUS tricuspidata veitchii** (Boston Ivy). A fast-growing deciduous vine. Excellent for covering walls. Scarlet foliage in fall. Each
Potted plants.....\$1 50
- POLYGONUM auberti** (Silver Lace Vine). Foamy sprays of white flowers. Very rapid growth and good foliage. An excellent climbing vine. Each
2 yr.....\$2 50
- ROSA banksia** (Lady Banks Rose). A thornless, climbing Rose with evergreen foliage, useful for espaliers. Small, double yellow flowers in clusters. Each
2 yr.....\$2 50
- ROSA laevigata** (Cherokee Rose). Vigorous evergreen climber with thorny branches. Large, single white, fragrant flowers. Each
2 yr.....\$2 50
- ROSA wichuraiana** (Wichura Rose). A low, creeping Rose with small white flowers in clusters. Vigorous growing and wide spreading. This is an excellent bank cover. Each
1 yr.....\$1 50 | 2 yr.....\$2 00
- VINCA major** (Big-leaf Periwinkle). Deep blue, starry flowers on arching branches, generally about 18 to 24 in. tall. Does well in shade. Each Doz.
3-in. pots.....\$0 60 \$6 00
- VINCA minor** (Common Periwinkle). This well-known ground cover has blue flowers in profusion in early spring. Small, almost round, glossy green leaves. Low, prostrate or trailing growth. Grows well in either sun or shade. Each Doz. 100
2¼-in. potted plants.....\$0 30 \$3 25 \$22 50
- VINCA minor alba** (White Periwinkle). Same as the above except the flowers are pure white. Each Doz. 100
2¼-in. potted plants.....\$0 35 \$4 00 \$30 00
- WISTERIA sinensis** (Chinese Wisteria). The common Wisteria with drooping clusters. The flowers are bluish violet in color, usually appearing during May, but in a wet season it sometimes produces flowers during summer. Each
2 yr.....\$3 00
- WISTERIA sinensis alba**. Fragrant white variety of the above. Each
2 yr.....\$3 00
- WISTERIA macrobotrys** (Japanese Longcluster Wisteria). Beautiful, hanging flower clusters up to 18 to 24 in. in length. High-climbing, vigorous growth. We offer the following fine varieties:
Floribunda issai. Violet-blue.
Floribunda longissima alba. White.
Floribunda rosea. Pink.
Floribunda violacea plena. Violet.
Geisha. Lavender.
Royal Purple. Purple.
Prices on above: Each
2 yr.....\$10 00

HYBRID TEA ROSE, Peace

LAIRD'S QUALITY ROSES

ALL NORTHERN GROWN

We buy only the very best quality Roses from a reputable grower. These sturdy, field-ripened Roses are all two-year, field-grown, top-size bushes. We know you will be pleased with our Rose bushes, since no finer ones can be found at any price. We can begin delivering Roses around March 1, and continue well into summer. This is possible because we pot our Roses before growth begins so that our customers may have an opportunity to purchase plants in full bloom in late spring. We do not recommend fall planting of Roses. Our selection of Roses includes many of the old favorites as well as some of the newer All-America varieties. Our list includes approximately 90 varieties in the various types listed below. The price range is from \$1.75 each to \$3.50 each. We welcome all inquiries for Roses.

HYBRID TEA ROSES

These are the ever-popular hardy everblooming Roses so desirable for bedding in combination with shrub or evergreen plantings.

FLORIBUNDA ROSES

These are the cluster-flowering bush Roses, blooming prolifically all summer. Rapidly gaining in popularity.

CLIMBING ROSES

Very hardy climbers of rapid growth, blooming in early summer. Excellent for covering trellises, pergolas, or walls in a hurry.

CLIMBING HYBRID TEA ROSES

Perpetual Flowering

Wonderful climbers, somewhat tender, having the same blossoms and characteristic everblooming qualities as their parent bush Roses.

GRANDIFLORA ROSES

A new hybrid class noted for prolific blooming habit and hardiness.

APPLE ORCHARD IN BLOOM

FRUITS AND NUTS

We offer here a few select varieties of home fruits and nut-bearing trees suitable for use in the landscape. Most of these are ornamental as well as fruitful. Let your shade trees be ones that bear a crop of luscious, tree-ripened fruit.

DWARF APPLES

Dwarf, slow-growing trees, which bear when young.

Red Delicious. Red, sweet. Fall.

McIntosh. Red. Fall.

Stayman. Large, red. Winter.

Yellow Delicious. Golden yellow. Fall.	Each
2 yr., 3 to 4 ft.....	\$4 50

APPLES

Black Twig. Dark red, firm. Winter.

Grimes Golden. Yellow, spicy. Fall.

Jonathan. Red cheek firm. Winter.

Lodi. Large golden yellow. Summer

Red Delicious. Red, sweet. Late fall.

Red June. Red, medium size. Summer.

Rome Beauty. Dark red, firm. Winter.

Stayman Winesap. Red stripe, green background. Winter.

Winesap. Medium size, red. Winter.

Yellow Delicious. Golden yellow. Fall.	Each
2 yr., 4 to 6 ft.....	\$3 50

APRICOT

Moorpark. Orange-yellow fruit, red cheeks.	Each
2 yr., 4 to 5 ft.....	\$3 75

CHERRIES

Black Tartarian. Black, sweet.

Early Richmond. Red, sour.

Governor Wood. Red, sweet.	Each
2 yr., 4 to 5 ft.....	\$3 75

FRUITS AND NUTS, continued
